

BRADFORD WHITE

TRIFLEX™

MEDIUM DUTY

COMMERCIAL ELECTRIC WATER HEATER

Bradford White's TriFlex™ Medium Duty models are versatile commercial electric water heaters that are field convertible for fast, easy installations. Seventeen conversion kits allow kW input, phase and voltage changes at the supply house, or in the field. Three models now become 51 models, so no need to stock an exact configuration anymore!

QUICK SPECS

- 3 Capacities (50, 80, 120 gallon)
- kW Input Ranges: 6kW - 18kW
- Phase Conversion Available: 1 PH to 3 PH, or 3 PH to 1 PH.

APPLICATION FLEXIBILITY - All models can easily be converted by a qualified installer to a variety of electrical requirements in the field or at the supply house. No need to re-wire at a certified UL Wiring Bench.

CONVERSION KITS - Seventeen kits provide the capability of converting all models to different kW inputs, phases and voltages for a total of 51 configurations.

INCOLOY ELEMENTS STANDARD - Three high strength, super durable alloy heating elements last longer in harsh water conditions as well as provide greater resistance in dry firing situations.
